

SANTIBURI KOH SAMUI TO WELCOME GUESTS BACK TO PARADISE ON 15th JULY 2020

26 June 2020

Dear Valued Partners,

We are delighted to announce that Santiburi Koh Samui will reopen its doors on Wednesday 15th July 2020.

The resort's team has undergone extensive training and is now ready to welcome guests back in a safe and secure environment. All of the resort's facilities will be operational, including our luxurious suites & villas, restaurants, Lèn Spa, sports center, water sports center, Panya & Yim's Junior Camp, and more.

All visitors can rest assured that Santiburi Koh Samui will adhere to the highest standards of health and hygiene, in line with the guidance of the World Health Organization (WHO) and local authorities. The resort has been certified by the Thai Ministry of Public Health and awarded by the Amazing Thailand Safety and Health Administration (SHA), reflecting our advanced cleaning procedures and protocols. These measures include deep cleaning and disinfecting, use of personal protective equipment (PPE), body temperature checks for all guests and team members, social distancing arrangements and [more](#).

We understand that the last few months have been a challenging time for everyone. One unexpected benefit of the lockdown however, was that it allowed the natural environment to recover and flourish. At Santiburi Koh Samui, our 23 acres of tropical gardens and 300-metre-long sandy beach look truly spectacular and look forward to sharing this pristine ecosystem with guests.

Our entire team is excited to greet guests once again, blending our trademark Thai hospitality with the "new normal" of post-COVID-19 travel to create a completely stress-free travel experience.

We look forward to seeing you and your guests soon!

Santiburi Koh Samui
